About 'Wiro Agency'

Wiro Agency is a fast-paced, rapidly growing Creative Agency based in Suffolk, serving clients nationwide and worldwide. We offer design services from UX/UI, to branding strategies, in-house consultation for design & strategy and most importantly for you, web and app development services. Working on partner platforms such as Shopify Plus, WordPress, as well as creating apps, API and databases from scratch. Our team is made up of designers, developers and marketers – *all of whom are a young, talented and dynamic bunch!*

Job Description

We are looking for an exceptional web developer, who specialises in working with PHP and has a good knowledge of web architecture, load balancing and databases. In addition to being a great developer, you'll have a positive attitude, a real focus on user experience and a desire to make a positive impact for our clients.

As an agency, we primarily work with Shopify, WordPress and custom builds with PHP frameworks. Your role with be working with PHP and handing off to front end developers to integrate with the specific platforms. Knowledge of these platforms aren't completely necessary for the role, however it would be beneficial.

The Team

You'll be working alongside our UI/UX design team who'll hand over interactive designs and provide you with all necessary assets, developers at all levels who'll be working on projects alongside you and project managers to ensure projects run smoothly.

Essentials Skills

* A good experience working with PHP & any MVC framework, JavaScript and MySQL
* A strong attention to detail in both visuals and site performance
* Able to analyse website performance and make recommendations
* Knowledge of hosting management, DNS, SSL, CDN's etc
* Ability to effectively troubleshoot issues

* Experience working with API's

* Knowledge of version control (Git)

* Able to take ownership of your own projects

* Able to test projects thoroughly

Beneficial Skills

Any experience in the following would be beneficial but not required;

* Shopify

* WordPress

* AWS (EC2, RDS, S3)

* SCSS

Perks/Benefits

* A generous salary based on your experience

* 28 days annual leave (incl. public holidays)

* Gym membership

* Relaxed dress code

* Onsite parking

* Free lunch on last Friday of each month

* 8am - 4pm work days (miss the trafficjams!)
